

Veille technologique

1er axe : Dev général, actualités, informations, ect..

The screenshot shows a web application interface with a dark theme. On the left is a sidebar with navigation options: FEEDS (All, Dev Web), BOARDS (Dev, Menu Maker by Qwenta), Recently Read, Blog, and Learn and Get Support. The main content area is titled 'Dev Web' and features a 'MOST POPULAR' section with articles about Facebook's stance on Linux, an AI tool for Scrum estimation, and a CSRF attack. A 'YOU MIGHT ALSO LIKE' section on the right recommends users like Cascading Style Sheets, KIRUPA, and Brad Frost. A 'TODAY' section at the bottom highlights an article about the Scrum Guide.

MOST POPULAR

Facebook a adopté une position anti-Linux et a décidé que Linux était un logiciel malveillant, signalant les sujets relatifs à Linux comme des "menaces pour la cybersécurité" et bloquant des utilisateurs

Facebook bans Linux discussions as threats • 200+ Flux Développement et hébergement Web De... / 2d

Facebook bloque les sujets et les canaux Linux sans raison apparente. Un rapport révèle que Facebook aurait supprimé les messages contenant des liens vers DistroWatch. D'autres mentions d...

Taskade; An AI Tool to Upgrade Your Estimation Process

Scrum.org Blog / 1h

Nowadays, AI is revolutionizing the way we work. It is natural we see the AI footprint in the Scrum way of working as well. One of the areas that Scrum practitioners are always interested in is estimation. So, I...

What is a Cross Site Request Forgery (CSRF) attack?

What Makes an Increment Truly Valuable?

The Scrum Guide

Useful vs. Usable: What Makes an Increment Truly Valuable?

Scrum.org Blog / 16h

In earlier musings, I discussed the Increment from the perspectives of it being "additive" and "valuable." This time, let's explore the adjectives "useful" and "usable." From the Scrum Guide: - "The entire Scrum Te...

2ème axe Technologies du projet Menu maker by Qwenta

The screenshot displays the 'Menu Maker by Qwenta' web application. The interface is dark-themed and features a sidebar on the left with a 'FEEDS' section containing a list of sources like 'Flux Développement et héb...', 'Grafikart.fr', and 'Menu Maker by Qwenta' (which is highlighted). Below the feeds is a 'BOARDS' section with 'Dev', 'Menu Maker by Qwenta', and 'Recently Read'. The main content area is titled 'Menu Maker by Qwenta' and shows a feed of articles. The first article is 'Enterprise teams can now ship faster without build queues' by Vercel News. The second is '5 days to impress interviewer' shared in r/reactjs. The third is 'ISR on Vercel is now faster and more cost-efficient' by Vercel News. The fourth is 'Expo Open OTA - Open-source alternative for self-hosting Expo OTA updates!' shared in r/reactjs. The fifth is 'S3 Tables adds support for adding schemas when creating tables' from Amazon S3 User Guide RSS Feed. A 'YOU MIGHT ALSO LIKE' section on the right suggests 'React on Medium', 'Redux on Medium', and 'React Native on Medium'. An 'Upgrade' button is visible at the top right of the main content area.
